

Welcome to the world of

ECKYPIX

**Aviation and railway
photography
by ERIC J FLAVELL**

Welcome to the world of ECKYPIX...a collection of UK aviation photographs and railway images taken by transport photographer Eric J Flavell, a former journalist living in the Midlands. The collection also features a small range of photographs of places of architectural or historical interest.

Most images are available as 5"x 7", A3 or A4 prints, printed on high quality Canon photographic paper and individually mounted in a wooden frame (black or silver). A range of A4 'collectors' prints in glass clip frames is also produced offering a cheaper alternative for those seeking to build a collection of images at a modest cost.

Unframed pictures in smaller sizes, such as 4x6in (10x15cm) or 5x7in are available on request. Framed A3+ prints are only available to special order and, as they require custom framing, are supplied at a cost that reflects this.

The selection of prints included in this catalogue is but a fraction of those in the ECKYPIX collection, which continues to grow in number every month! So, if you are looking for a particular type of aircraft or locomotive, get in touch...it may already have been photographed.

COSTS

A4 'Collector's edition' prints, mounted in clip frame.....£10

5"x 7" print, mounted and framed (frame size 20x25cm).....£15

A4 print, mounted and framed (frame size 30x40cm).....£30

A3 print, mounted and framed (frame size 40x50cm).....£40

A3+ print, mounted and framed.....Special Order Only

Delivery is charged at cost price.
